NODAK CROP INSURANCE NEWS

1964 Edition No. 9

March 6, 1964

SALES - This week a total of only 312 sales were reported. At the present rate which we are selling, we can never hope to reach our goal.

As of now just eleven counties have produced over one half of the crop sales made in the State. They have accomplished more than the other 41 counties together.

It has been my observation that wherever consistent, hard work is being done we are getting good results.

Between now and the end of the sales period, just $3\frac{1}{2}$ weeks away, we must have 2,600 additional crop sales. Only by everyone giving a maximum effort will this goal be realized.

LaMoure and Richland counties with 25 crop sales each were the leaders in this category followed by Grand Forks and Logan Counties with 20 each. LaMoure County also leads with 2,536 net acres insured for the week followed by Adams County with 2,294.

SALES - This week we have the contribution of District Director Jesse B. Olson.

"Over here on the side is a copy of the sign we had at the Agents Conference last Fall. Remember it?"

"Well, I'm the keeper of that sign. I see it right along and until just recently I've doubted that you could show another \$500,000.00 increase in premium for 1964. Please accept my apologies for ever doubting that you Agents and Fieldmen could let that blank space under 1964 show less than \$4,000,000 at our next Conference.

"Now that I have the chance, there are a few things I'd like to say about some of my Agents that don't show up in the gained and lost column of the No-Dak News."

"I think Art Kirschenmann, Kidder County Agent has made some kind of a record. He hasn't missed sending in a Sales Report since we started early last Fall and has missed having sales to report but twice during the whole period. Joe Vetter, Emmons County Agent is confident that all 1963 premiums will be paid before March 31. He hasn't spent all of his time collecting either, he's increased business more than 60 per cent. And this is the sixth consecutive year that

Bert Baye, Oliver County Agent and Hilken, Burleigh Agent have increased business. And Bert has only one crop and practice to offer, too."

"If the Powers that Be ever let me write another one of these I'll tell you how good the rest of my Agents are. Looking at that Conference Chart again - - I hate to say it - - - but - - - maybe my men aren't any better than the rest of you".

STATE OFFICE COMMENTS - This week several counties had real good results and increased their number of sales, acres and expected premium by a substantial amount. However, the overall results were not up to our expectations for this close to the end of the sales campaign. We are still looking for the really big week that is needed to meet the goals.

Reports from the Winter Show at Valley City indicate considerable interest on the part of producers stopping at the booth. We will send you the registration slips of possible prospects in your county as soon as we can, after the show.

Top sales honors for the week go to McHenry County with 58 crops. Followed by LaMoure with 41.

Net acres sold honors go to McHenry County with 3,199 acres, LaMoure County covering 3,011 acres was in second place.

PREMIUMS DUE - Continued efforts are reducing the number of unpaid accounts.

Let's save all we can before the termination date. Please review our memo of February 28, 1964 pertaining to terminations for indebtedness.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions.

2. It is essential to ensure that all data is entered correctly and that the system is regularly updated.

3. The second part of the document outlines the various methods used to collect and analyze data.

4. These methods include both qualitative and quantitative approaches, each with its own strengths and limitations.

5. The third part of the document provides a detailed overview of the results of the study.

6. The findings indicate that there is a significant correlation between the variables studied.

7. This suggests that the factors being investigated are closely related and may influence each other.

8. The final part of the document discusses the implications of these findings for future research.

9. It is recommended that further studies be conducted to explore the underlying mechanisms of the observed effects.

10. Additionally, it is suggested that the current findings be applied to practical situations where possible.

11. The fourth part of the document concludes the study and summarizes the key points.

12. The authors express their gratitude to the funding agency and the participants who made the study possible.

13. Finally, the document includes a list of references to the sources used throughout the study.

14. These references provide a comprehensive overview of the current state of knowledge in the field.

15. The document is intended to serve as a resource for researchers and practitioners alike.

16. It is hoped that the information provided will be useful and informative to all who read it.

17. The authors are confident that the study has contributed to the understanding of the topic at hand.

18. They also acknowledge the limitations of the study and the need for further investigation.

19. The document is a product of the collective effort of the research team.

20. It is a testament to the power of collaboration and the pursuit of knowledge.

21. The study was conducted in accordance with the highest standards of research ethics.

22. All participants provided informed consent and their privacy was protected throughout the study.

23. The data collected was analyzed using state-of-the-art statistical software.

24. The results of the analysis are presented in the following sections of the document.

25. The document is a valuable contribution to the field and is intended to be a lasting resource.

26. It is a reflection of the dedication and hard work of the entire research team.

27. The authors are proud to present this work to the academic community.

28. They hope that it will inspire further research and discovery in the years to come.

29. The study was supported by the following grants and funding sources.

30. These sources provided the necessary resources to complete the study successfully.

31. The authors are grateful to the individuals and organizations that provided support.

32. Their contributions were instrumental in the completion of this study.

33. The document is a testament to the power of research and the importance of sharing findings.

34. It is a record of the journey of discovery and the quest for truth.

35. The authors are committed to the ongoing process of learning and growth.

36. They believe that the pursuit of knowledge is a never-ending journey.

37. The study is a small step towards a greater understanding of the world.

38. It is a testament to the human spirit and the capacity for innovation.

39. The authors are grateful to the readers for their interest and engagement.

40. They hope that the document will provide a valuable resource for all who are interested in the topic.

NO DAK CROP INSURANCE

FARGO, NORTH DAKOTA

UNITED STATES DEPARTMENT OF AGRICULTURE

DEC 17 1964

NEWS

1964 Edition No. 11

CURRENT SERIAL RECORDS

March 20, 1964

SALES - This eleventh edition of the NoDak News is written by G. L. Thexton, District Director for the Northeast 10 counties.

"Sales is the topic on every FCI Agent's mind as the selling period draws to a close."

"With less than 2 weeks to go "all the stops are pulled out" in an all-out effort to reach and exceed the county and State goals."

"Two of my counties - Eddy and Foster have reached their targets and are well on the way to higher sights. Other counties showing good progress are Cavalier, Grand Forks, Nelson, Pembina, Ramsey and Walsh. Towner had a good week and an extreme effort will be made in Benson in order to make the district look "balanced"."

"I'm sure all of the District Directors are talking the same language as I am to their respective agents as we cannot afford to let North Dakota become "second best"."

COLLECTIONS - Mr. Thexton continues: "Closely related to sales are collections.

Remember, a paid up account is just as good as a sale so we must all strive to do our best not to lose business because of unpaid premiums which is what will happen if the collection isn't made by March 31."

"So, full speed ahead to all of you and the best of luck."

JUST IN CASE - your copy of last week's NoDak News didn't get clearly corrected, we want to advise you that we expect the 1964 premium to reach \$4,000,000 not \$4,000.00. Amazing the change a missed zero and a comma can make.

WINNERS - of the prizes given by the Southeast District Agents at the winter show are:

First (Cedarholm measuring wheel) - Hilmer Krogh, Fairfield, N. Dak.
(Billings County)

Second (Automatic Egg Cooker) - Mrs. M. Hamre, Leonard, N. Dak.
(Cass County)

Third (Fishing rod and reel) - Allen Honerson, Sutton, N. Dak.
(Griggs County)

FROM THE STATE OFFICE ON SALES - The final days of the 1964 campaign are in sight. What is done in the remaining time will spell success or failure for your county, for your District and for the State. "Red" says, "Full speed ahead". We have nothing more to add.

Top crop sales county for the week was LaMoure with 56 sales. Logan County was second. The most net acres sold were LaMoure County followed by Logan County.

Piehl's District led in crop sales and acres.

ACREAGE REPORTS - Just around the corner. Please order needed worksheets, extra forms or anything else as soon as possible.

1964 Edition No. 12

SALES - We can only hope that, in spite of the ice, snow and wind early in the week, you were able to make the contacts and get signatures on applications and 812-A's.

As of now the State is in the plus column on crops. But we are a long ways from making our goal, and we don't know what we will lose in terminated crops and contracts yet.

LaMoure County was the leader in both crop sales and net acres again. Richland County was second in crop sales and Pierce in net acres.

All applications, add-on's, etc. should be transmitted as soon as possible. We want to complete processing all forms without delay. Suspended cases and other problem cases should be cleared up as fast as possible.
